Know When to Stay Home, Isolate, and Get Tested

Any person with one (or more) of the following COVID-19 symptoms should stay home, isolate, and get tested unless a healthcare provider has a more likely diagnosis.

- Fever or Chills
- Cough
- Shortness of breath or difficulty breathing
- Fatigue
- Muscle or body aches
- Headache
- New loss of taste or smell
- Sore throat
- Congestion or runny nose
- Nausea or vomiting
- Diarrhea

COVID-19 testing is available in your community and through the child care/PreK-12 testing service. There is no cost to participate in COVID-19 testing at a State-run test site or in school. Insurance is not required. Find more information on RIDOH’s Pre K-12 Testing web page.
