

Rhode Island Department of Human Services

Licensed Child Care: Health Care Consultant

Updated 12/6/2022

Child Care Centers and School Age programs must have medical consultant services readily available to obtain and maintain a child care license per regulation **1.11.G.15.a**, which states:

The program must have the consultant services of a licensed physician, physician’s assistant, nurse practitioner, or other approved health consultant who is a licensed health professional with education and experience in child and community health, readily available. Programs must have a written plan for accessing (via phone, virtual, or in person) such consultation services at all times when children are in care.
